**TLE29 series\***

Simple yet versatile design accentuated by the angled cut of the spout

\* Not available in Europe market.

# TECHNOLOGY of TOUCHLESS FAUCET

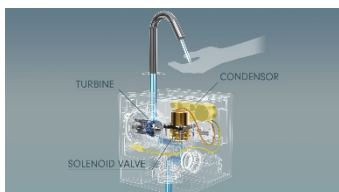

## TOUCHLESS

TOUCHLESS faucets guarantee the utmost in cleanliness. In addition to ensuring the ultimate in hygiene, these smart-sensor faucets conserve water by releasing it only when activated. This is especially beneficial for faucets in public restrooms, as these contact-free faucets considerably reduce the transmission of bacteria, germs and viruses.

## SELF POWER

This sensor-activated TOUCHLESS FAUCET generates its own electricity. TOTO SELF-POWER technology requires no external power source, has no minimum daily usage requirement, and is capable of generating its own power at the ultra-low flow water volume is only 1.3 L/min. SELF-POWER is environmentally sustainable.

## ECO CAP

ECO CAP is an air-injection technology, which reduces water consumption. Aerating the water increases it's volume, so you can wash your hands with full stream while using less water.

Applicable model : TLE20, TLE22, TLE23, TLE25, TLE26  
TLE27, TLE28, TLE29, TLE30, TLE31

## SOFT FLOW

From this graceful TOUCHLESS FAUCET design comes the touch of water most gentle.

SOFT FLOW technology's precisely balanced individual water streams gently caress the skin as you wash your hands, with virtually no splash.

The sensation is soft, yet luxurious and robust.

Applicable model : TLE21, TLE24

## EWATER+

Reduces dirt and bacteria's accumulation on the washbasin, especially around the drain.

EWATER+ cleanses the washbasin's drain area where dirt and bacteria tend to accumulate, producing stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic bacteria has no place to hide.

Applicable model : TLE30, TLE31
